TRUCKING FLEET MANAGEMENT

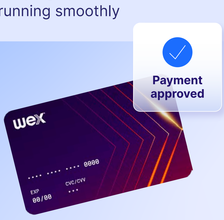
How a fuel card will transform your work

Managing a trucking fleet comes with responsibilities:

- Tracking expenses
- Preventing misuse
- Keeping costs down
- Keeping operations running smoothly

A fuel card can simplify all of that with:

- Real-time insights
- Automated reporting
- Built-in security features



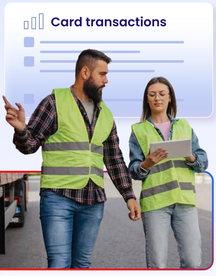
Here's how it can transform the way you manage your fleet.

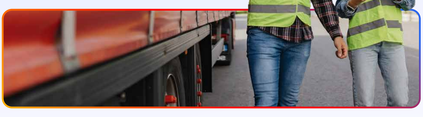
Trucking fuel cards track spending

- Capture every transaction in real time- Showing what was purchased, where, when, and by which driver
- Provide full visibility into driver activity and spending across your entire fleet

Automated reporting organizes all your fuel and vehicle data into easy-to-read summaries allowing you to:

- Spot trends
- Manage costs
- Make smarter decisions without spending hours pulling reports manually



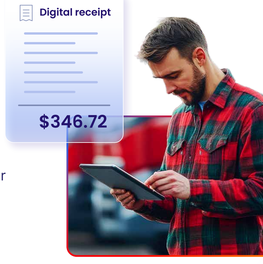


Fuel cards offer fraud and misuse detection:

- Using two-factor authentication with Dynamic Prompt
- Allowing you to confirm who's fueling and prevent unauthorized purchases
- Sending you alerts flagging suspicious activity so you can act fast and protect your budget

Analyze spend with:

- Tracking every gallon and dollar in real time
- Data compiled into clear, accessible reports
- Knowing exactly where your fuel budget is going
- Knowing how to adjust for maximum efficiency



Savings access

Find savings with:

- Fuel rebates and discounts at thousands of partner stations nationwide
- Better route planning
- Better usage tracking

Lower your fuel spend over time!
