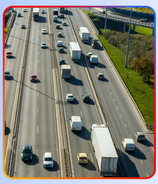
# TRUCKING FLEET MANAGEMENT

## How a fuel card can transform your work



## Managing a trucking fleet comes with responsibilities:

- Tracking expenses
- Preventing misuse
- Keeping costs down
- Keeping operations running smoothly

## A fuel card can simplify all of that with:

- Real-time insights
- Automated reporting
- Built-in security features

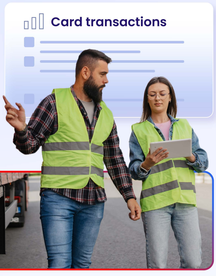
## Here's how it can transform the way you manage your fleet.

## Trucking fuel cards track spending

- Capture every transaction in real time- Showing what was purchased, where, when, and by which driver
- Provide full visibility into driver activity and spending across your entire fleet

## Automated reporting organizes all your fuel and vehicle data into easy-to-read summaries allowing you to:

- Spot trends
- Manage costs
- Make smarter decisions without spending hours pulling reports manually

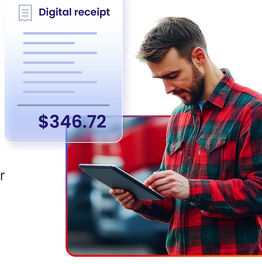


## Fuel cards offer fraud and misuse detection:

- Using two-factor authentication with Dynamic Prompt
- Allowing you to confirm who's fueling and prevent unauthorized purchases
- Sending you alerts flagging suspicious activity so you can act fast and protect your budget

## Analyze spend with:

- Tracking every gallon and dollar in real time
- Data compiled into clear, accessible reports
- Knowing exactly where your fuel budget is going
- Knowing how to adjust for maximum efficiency



## Savings access

Find savings with:

- Fuel rebates and discounts at thousands of partner stations nationwide
- Better route planning
- Better usage tracking

## Help lower your fuel spend over time!
