Is fleet fraud draining your profits?

Discover a smarter, AI-powered approach to detecting and stopping fleet fraud.

Fuel theft, misuse, and fraud cost fleets millions every year, and **the risk is only rising.**

80% of organizations

experienced payment fraud attacks in 2023— **a 15-point jump from the year before.**
2024 AFP Payments Fraud and Control Survey

For fleets, the impact is hard to ignore:

5–10% of annual fuel consumption is lost to theft or misallocation
AssetWorks

Up to 12% lost to fraud from skimming and unauthorized use
NAFA Webinar

19–22% of total fleet spend lost to fraud and theft, according to operational leaders
CFO.com

What it means in real dollars

Assume a 1,000-vehicle fleet with $5M in annual fuel spend and a $10M total operating budget. You could be losing:

$500K/yr
lost to fuel theft and misallocation

$600K/yr
lost to fraudulent transactions

$2.2M/yr
in total fraud-related losses

**Real dollars. Real risk. Real impact.**

The solution: smarter fraud protection, built into every WEX fleet card.

Powered by AI. Proven by results.

<1 in 12,000 transactions confirmed as fraudulent, that's less than **0.01% of total transactions**

32%
more fraudulent transactions stopped

25%
less loss from fraud

32%
fewer declines on legitimate transactions

Results like these **don't happen by accident.** WEX combines AI-driven fraud detection with a dedicated fraud team to catch unusual activity early, so you stay ahead of the risk, not behind it.

Based on WEX customer transaction data from a recent 60-day period, including fraud rates and outcomes where AI-driven models flagged suspicious activity.

How it works: AI that learns from your fleet

WEX's fraud detection engine improves with every transaction.

Every WEX card swipe fuels our AI
Our system instantly begins analyzing the transaction, learning your fleet's unique patterns to flag suspicious activity faster.

Draws insight from 30M+ transactions per month
Constantly retraining with billions of fleet data points.

Flags anomalies faster, with fewer false positives
Improves accuracy with every transaction, stopping more fraud with less disruption.

WEX is built for the job

With the expertise, tools, and data intelligence to help outsmart fraud at every turn.

› Trusted by **800,000+ businesses** serving 20M vehicles

› **40+ years** in fleet payments

99.8% transaction reliability with Level III data

Smarter fraud protection starts with WEX. Less loss. Fewer disruptions. **More visibility and control.**

Protect your fleet with a smarter fuel card from WEX.
