

ClearView Essentials

All of the data, none of the data entry

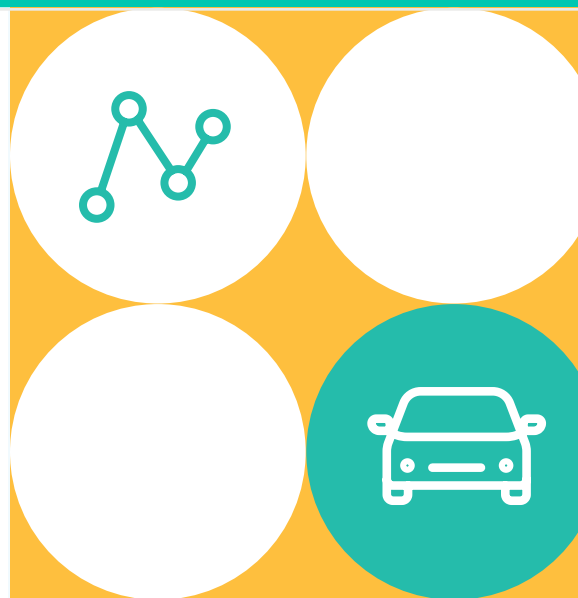

Get a complete picture of fleet fueling activities without touching a single spreadsheet

No more data entry. No more paper receipts. **ClearView Essentials** captures your fleet card transaction data so you can stop jumping from spreadsheet to spreadsheet to see what was purchased, by whom, where and at what price.

ClearView Essentials displays sophisticated analytics in simple graphic images that enable you to easily:

- › Eliminate time-consuming data collection, entry, and manipulation
- › Identify and investigate purchasing anomalies
- › Capture a clear picture of driver behavior and vehicle performance
- › Uncover card misuse and potential driver theft
- › Share information with all levels of your organization

ClearView Essentials – data analytics that help you focus your time where it counts

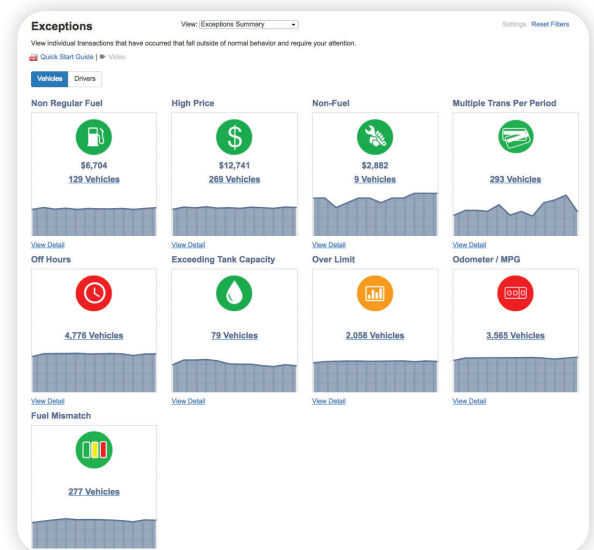

Get a comprehensive overview.

The **Volume & Spend Dashboard** tracks Key Performance Indicators (KPIs) across time periods, by product, card, driver and geography. It provides a high-level view of your fleet's overall performance.

Dig into the data.

The **Exceptions Dashboard** uses color-coded icons and trend lines to help you easily prioritize your valuable time and attention. Use the dashboards to quickly isolate and quantify your biggest cost-saving opportunities and most prominent purchasing problems.

Single out suspicious behaviors for closer examination.

Examine purchasing behaviors using the **Exceptions Module**. Non-compliant behaviors could simply indicate a need for better driver training. Or, they could point to more serious issues, such as fuel theft and card fraud.

Among the exceptions you can investigate are high-price purchases, non-regular fuel purchases, high-priced and off-hour purchases, purchases exceeding tank capacity and more.

High Price Exceptions

Vehicle	Drivers	Gallons	Gross \$	Avg Reg Diff	DIF X Gallons
13784 2013 Ford F-450 Sd	2	948	\$2,792	+0.39	\$332.88
17859 2017 Chevrolet Express	1	764	\$2,108	+0.41	\$316.54
14281 2014 Ford Econoline	1	338	\$1,142	+0.34	\$93.47
16553 2016 Ford Transit	1	521	\$1,485	+0.44	\$233.05
12781 2012 Ford Econoline	1	389	\$1,179	+0.56	\$220.09
11440 2011 GMC Sierra 3500HD	4	944	\$2,870	+0.21	\$207.10

Non Regular Exceptions

Vehicle	Drivers	Gallons	Gross \$	Avg Reg Diff	Non Reg %	DIF X Gallons
13784 2013 Ford F-450 Sd	1	758	\$2,232	+0.40	53.1%	\$304.11
17859 2017 Chevrolet Express	1	695	\$1,923	+0.42	88.0%	\$292.37
16553 2016 Ford Transit	1	486	\$1,365	+0.47	92.0%	\$227.65
17791 2017 Chevrolet Express	1	480	\$1,223	+0.39	96.8%	\$186.50
16010 2016 Ford Transit	1	368	\$1,036	+0.40	83.1%	\$146.03
14381 2014 Ford Econoline	1	401	\$1,474	+0.51	88.1%	\$171.63

Off Hours Exceptions

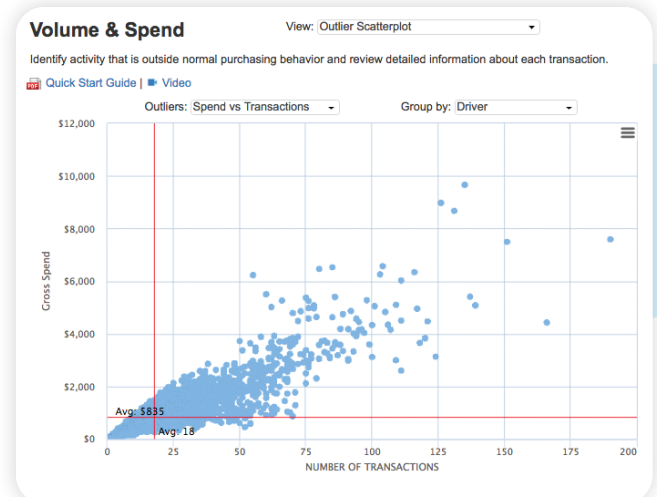

Day selection: Saturday & Sunday Start Time: 12:00 AM End Time: 11:59 PM

Driver	Vehicle	Units	Gross \$	Total Ten Count	Hours Ten Count
Eddie Taula	10844 2016 Ford Transit	1,084	\$4,454.85	123	30
Antonia Mays	10719 2016 Ford Transit	1,524	\$3,293.85	168	32
Yukiko Willford	10612 2016 Ford F-450 Sd	405	\$1,120.10	30	14
Hassie Healy	10611 2016 Ford F-450 Sd	2,433	\$5,895.43	85	16

Christine Praczyński	10599 2016 Ford Transit	264	\$692.12	20	14
Margie Rieck	17814 2017 Ford Transit	1,331	\$3,006.35	111	11

Drill down on purchasing anomalies and outliers: who, what, when and where?

The **Volume and Spend Outlier Scatterplot** makes it easy to identify and investigate anomalies and see which drivers and/or vehicles are operating outside your company policies.

Use multiple filters and detail views (number of transactions, time frame, fuel type and grade, driver, etc.) for a closer look at specific drivers or vehicles to better understand the issue.
